

**Manhasset's Downtown Parking
DRAFT Agenda
Planning Thoughts**

At this point, nothing is written in stone; All thoughts welcomed.

- (1) **Mission; General Framework for the committee's work:** Identify the problems, Preliminary solution concepts, and broad list of potential option/ solutions.. likely to require a series of meetings. At that point, Town Planning Department active involvement is likely required for identifying technical limitations of the concepts identified, with likely additional detail studies of the issues raised will be needed.
- (2) **Committee Participation.** Councilwoman Anna Kaplan and Town's help and participation in this process remains essential. I have requested from Town, the names/contact info from TNH of other successful Vision Planning Group leaders in other TNH communities. Right now, Manhasset's downtown has a Vision Plan focused only on roadway traffic calming and we all know there's more elements needed in a true downtown Vision Plan. Pursuing individual topics independently may not in the long term be best, but until Manhasset has a broader Vision Plan structure, we believe its best to get collaborative Parking discussions underway.

Initially, a working committee of no more than a dozen participants was believed to be a productive size for initial problem identification and possible alternative solution options. The list below has constituencies/ participants discussed in June 2012. Some participants have more than one constituency affiliation. While some relative balance in constituencies is optimal, but inclusively is more important while keeping an effective size. It is understood that every committee member will NOT likely be able to attend every committee meeting, but the goal is to have representation of each constituency at every meeting. Councilwoman Kaplan/ Sabereh can confirm the participants from the initial July 24, 2012 meeting, but in the meantime, the preliminary list included:

Chamber of Comm/. Plandome Merchants:

Ed Wassmer (also a building owner)
Lois Silva
Lee Tamaras

Coalition for a Safer Manhasset

Katie Miller (Also Chamber)

Civic Leaders:

Rich Bentley
Marion Endrizzi
Sue Auriemma
John Minogue
Andrew Schwenk

Manhasset Park District:

John Regan
Mark Sauvigne
David Paterson

Town of North Hempstead

Anna Kaplan
(Committee Staff/ Planning Dept?)

"**Building Owner/Landlords**" and an **Inc Village Mayor** (to liaison committee work among all Manhasset's incorporated villages) were potential constituencies.

- (3) **Committee's Chair.** An interim 'convener' may be needed to get the structure process underway until a more formal Chair is determined. Councilwoman Kaplan successful Vision process structure would be optimal.
